RATIONALE.

Unemployment figures across the country are staggering. So also is the rate at which small businesses are failing due to lack of access to cash and sound entrepreneurial knowledge.

Financial systems in many African countries are not configured to allow access to ordinary people. **Normal people can not get loans.** Yet.. The population of unemployed continues to increase astronomically.

The G300 entrepreneurship club is a solution for any hard working and disciplined person to learn the proper way to start and run a business and also get the opportunity through the peer to peer donation system to get enough money to start the business.

Here is a graphic table of the donation system. It shows how much you will get and what you need to do to get there. Normally, **if you follow the 30 day plan**, you will be able to complete the table within just 6 months of membership.

Do not forget that no matter what level you have reached, once your membership time expires, you will be removed from membership.

We do not want people to make membership of G300 a career or business. This will not be possible as the system automatically deletes inactive or expired members.

The first priority of every member is to
embark on our **30-DAY GAME PLAN.**

This is a compulsory part of the entrepreneurship course that is designed to
help you to

1. Set clear goals
2. **Dedicate the first 30 days of membership to building a strong team of downline members.** This will ensure that you get to the last level within a short time and get the money you need for your business.
3. Adjust your thinking paradigms to suit the new level of effectiveness and success that you life is about to enter. Your old way of thinking just wont work. You must be bold and think very big and be sure you will succeed. **If you do not change your thinking, then nothing will change.**

FREQUENTLY ASKED QUESTIONS

WHY THIS TYPE OF CROWD FUNDING SYSTEM ?

Crowd funding has become a very popular and well accepted system of running people oriented self help organizations. **It is not MLM and it is not PONZI or PYRAMID.** Although people confuse them, they are all very different. PONZI and PYRAMIDS are actually illegal in some countries but MLM is not illegal anywhere. But crowd funding is actually gaining serious momentum across the world because it is just people who of their own free will decide to help one another.

For example in the markets of the old days and even today. Ten women can decide to raise N10,000 each every month and give it to a different member of the group every month. That will mean that each person has an opportunity to get N100,000. To grow their business. Individually, it would have been impossible **if each woman was acting alone** but since the ten have come together, it now becomes feasible that each person can have access to N100,000. This is how every big market in Africa grew before colonialists came with their own financial systems which we have been following and which currently do not favor the common man at all. **There is no ordinary person who can get a loan from any of our banks today.** *Our system is very simple* and only requires each person to give just N5000. **And also be ready to learn.** We feel that for any serious minded person, this is a simple way to get money to set up your own business. The only real risk is the initial N5000 donation. **THAT IS ALL YOU WILL EVER SPEND.** The current economic situation in the country calls for serious initiatives to deal with the financial crises that many are facing. **G300 is one of them.**

HOW MANY MEMBERSHIP LEVELS ARE ON THIS SYSTEM?

This system has only 3 Levels so that it will be possible for a reasonably serious member to complete in very short time. The fact that it has only 3 levels also makes it easy to manage to ensure that everyone qualifies. The cost of Membership Level 1 is just **₦5000** free donation to your up line.... That is all you will ever risk losing as a member of G300. After that level one, every other money you ever give out is based entirely on donations that you too have received.

HOW LONG CAN I BE IN A LEVEL?

The moment you register, you have to upgrade 0 to level 1. Within 48 hours. That means you have to give your direct up line (Sponsor) **₦5,000**. Within 48 hours of filling and submitting the membership form. At level 1, you have 30days to get your 4 members that you will introduce to G300. And you have 90 days to build you team to 16 members at the second tier and 180 days to get 64 at the 3rd tier.

DO I GET ANY HELP OR SUPPORT IN BUILDING MY TEAM ?

Absolutely yes ! You will get help all the way to the point of graduation **provided you reach out and ask for the help.** We will help you to develop your plan and also to push to ensure you get all your payments on time from all your members. There are also various manuals and training and meetings that will be organized. All you have to do is plug in and take advantage of it all.

HOW DO I GET PAID?

G300 is a member-to-member payment scheme and so you are paid directly by your down lines by hand or directly into your bank account. But you have to make sure that you confirm payment on the system once you have received money. G300 also follows up on each member to ensure they keep up with due payments so that members can graduate on time . Those who do not will be removed from the system.

CAN I HAVE MORE THAN 4 MEMBERS?

You can invite any number of new members and they will be placed in team matrix in the system. But only four will be directly under you. Any other members you introduce will simply be placed under the people under you. This will benefit you as you will be able to grow faster.

DO YOU GIVE REFUNDS ?

We cannot refund money to you that you have already paid out directly to any members. What you need to do is **think hard before you decide to join**. Once you make a payout to a member, there is no way to get the money back. What we will rather be working with you on is how to get your own payments to you which will definitely be more than what you paid out. Don't forget that once you get your four members, you are only paying out N15,000. You get to keep N5000. That's your money back in your hands.

CAN I CHANGE MY DETAILS (EMAIL, PASSWORD, PHONE NUMBER, BANK ACCOUNT NUMBER ETC.) AFTER JOINING?

You can only change your password. All other details must remain the same until the completion of your matrix. If you have an emergency like losing your phone or a problem with your bank, you will need to contact the central office to resolve and make alternative arrangements.

HOW CAN I BE SURE I WILL GET MY OWN DONATIONS ?

The G300 central office assures that all members are in close contact. We follow up every member to ensure that they keep to the schedules set up. Without this, we can not succeed in our vision. As long as you keep in touch with the central office, we will always be able to ensure your team progresses.

CAN I SKIP THE ENTREPRENEURSHIP COURSE AND DO ONLY THE CROWD FUNDING SYSTEM ?

No you can not ! That will completely defeat the whole purpose of the club. The main objective of the g300 is to spread proper entrepreneurship awareness and grow businesses. This is our central vision. **But we have seen that no matter how you teach, if there is no capital to start up the business, it is still zero.** That is how the donation system was born. The Entrepreneurship Course is the main reason for the existence of this system. **You must do the course if you are a member.**

CAN I HAVE MORE THAN ONE ACCOUNT.

Technically there is no way to control the number of accounts a single individual can have as long as they do not break our rules. **What would be the point ?** If you are really serious, you should simply focus on a single matrix and get over N7.6 million within about 6 to 8 months. All the members that you want to use in multiple trees will help you to qualify faster and leave the system. With that kind of money, you can really build a great business that creates jobs and wealth for you. **We do not encourage people to make membership of G300 a career.** That is why we have strict rules and an exit time for every member which is 12 months from entry.

Shape the future
or the future
will shape you.
Act or be acted
upon.

Plan or respond
to someone else's
plan for you.
Your life is your
choice.

Once your membership is confirmed, you can begin to tell others about our club and have the opportunity to build your membership network which will enable you to earn money through the peer to peer donation system.

Your membership has a tenure. After it expires, you will be removed from the system.

The donations you get are designed to be a pool that you can use to set up your own business within 12 months membership tenure.

You will easily be able to earn very substantial money within your 12 months of membership (If you follow instructions) and that money will be used to set up your business.

Alone you cant... Together we will.

**BYOBAFRICA
ENTREPRENEURSHIP
INSTITUTE**

We will provide training and total support to help you succeed in building your member network .

All that we ask is that you display **focus discipline** and a clear vision to achieve something.

We realize that **not everyone will succeed.** Some people will be lazy and some will simply not follow instructions, but we are determined to identify the serious people for whom this club is set up and work with them to succeed.

We sincerely hope you are one of the bright stars of the future that we are looking for.

*You will create jobs
and opportunities
for others and your
wealth will breed
more wealth which
will create a
beneficial ripple

continent.*

to a cause greater than ourselves.
I challenge you to ask yourself the
“why” of your existence.

I challenge you to live beyond
the bills and the
routine and mundane of life.

If you can rise to this challenge,
you will change the world.

You will join the ranks of people who
are not just alive but are also living.

WEALTH CAN NEVER BE GENERATED WITHOUT THE CREATION OF VALUE...

This means that you must do something of value for somebody (either a product or a service) before you can get rich... Do not be fooled....Anything else is not real and will not last.

The central goal of the G300 is to turn you into a creator of value. This is the real key to sustainable wealth.... Not just money. There must be something you are doing for others that will generate and justify any wealth to which you lay claim. Either a product or a service which is either online or offline.

The population of unemployed people across the country is staggering. Unfortunately, our leaders have let us down. Both our religious leaders and our political leaders. Corruption and short sighted leadership are the major problems. It has produced a nation of people who have limited opportunities despite living in the lap of potential. If you look at the tremendous potential that we have both in natural and human resources, you will agree that in reality, we really should not have such a huge number of unemployed or under employed people. **If our leaders will be honest, they will admit that this is one of their major challenges.. The amount of poverty in this country is just too much and things are not getting better.**

One of the major problems is that many of our young people just want money. There is no vision of how this will be achieved. This is the reason for crime even among the leadership. The irony is that there are so many ideas and opportunities around us that can easily make us rich.

But without vision there can be no real progress.

What is your vision for your life ?

G300 will help you to discover and also realize that vision **If you are ready to be disciplined and focused.** Those are the two most important things.... Discipline and Focus.

Money is also important. No vision can work well without money. The ordinary man can not get a loan from any bank now because of charges and collateral. Every day, the gap is getting wider between the rich and the poor. We have a solution that may put power back into your hands.

We have developed a peer to peer donation system that allows members to help one another. Every disciplined member will have the money needed to set up his or her business within a maximum of 12 months if they are serious. If you follow the rules, you can not fail.

Membership of G300 lasts only 12 months after which the member is automatically removed. So you have to be serious and know what you are doing.

The choice is up to you . There will never be enough jobs for everyone. But there will always be more than enough opportunities . That is the simple truth. Either you sit there and keep moaning and complaining or you rise up and do something about your life. Things will not get better until you get up and work to improve your life by yourself. Prayer without vision and action is a form of insanity. Please wake up.

It is better to work for yourself than to work for somebody else. There are no good jobs in this economy anymore for the great population of employment and also opportunity seekers... so you have no choice. We are in a new age of tremendous opportunity now with the growth of the internet and the awareness of the power of agriculture. Do not be left out. We will show you the way if you can be disciplined.

We can not afford to tolerate time wasters.

Our guiding principles are character, competence and capacity which must be founded on a clear vision and resolute focus. Without these, you will fail.

You must rise above doubt, fear and superstition and take your destiny in your own hands ... you must stop thinking like consumers who want things done for you and start acting like producers who will do something for others. This is the only way forward. Unemployment is painful, poverty is painful and frustrating .. Wake up and end it today. No other way to wealth than to establish something that people will patronize. G300 will help you.

We can be part of the drive to bring about a change of tide. Join our club and begin a steady walk towards self empowerment.

You will learn how to be a successful entrepreneur. And you will also Get all the money you will need to set up.

Welcome !

It is possible for an excellent student to lack vision.

He will get good result in all his exams but still live a life that is not successful. That is very possible because there is no vision. Vision is different from intelligence.

Success is not about book knowledge. That is why a professor can be poor and a footballer or comedian can be rich. Education is not vision. You must have read many stories of billionaires around the world who are dropouts. And yet they are successful entrepreneurs. **David who killed Goliath was not a trained soldier..** He just went there to deliver food. He was a delivery boy. But he still saved the nation with a small stone and became the king.

How did this happen ?? Faith and passion.

You need passion for something and also a belief that you can do it. And you must have a willingness to learn all you need to succeed and then take sensible action. Nothing happens without action.

You will definitely earn money from this G300 project but if you have no clear vision and a strong desire beyond mere acquisition of money, you may come back to square one. In fact the money will not last. And you will keep looking for money all the time. Because there is no vision.

Vision is very important.

But if you can get a very clear picture of an enterprise that you want to build and establish with the money you earn, then the odds in favor of your becoming very successful and financially independent are overwhelming. It will actually be very difficult for you to fail.

Be positive minded and expect the best always. Everybody in life gets what they expect whether they know this or not. If John and Jack are in front of you and you call John.. It is not likely that Jack will come running to you. It is who you call that comes to you. That is the secret code of all life. Please call good success to yourself.

I will advise you to expect the best from this course. There are several other modules and books and short lectures... TAKE THE PAIN TO GO THROUGH THEM. It is all for your own good.

This is the end of the introduction.
